Automatically build a Timeline from a SharePoint List, using Text, Images, and even Videos. Easily create beautiful vertical and horizontal Timelines to convey any information chronologically, with the content surfaced from any of your SharePoint lists.

The Timeline is created with the Timeline Builder and then added to a designated space on your SharePoint page/s. Once inserted on a page the SharePoint Timeline is dynamic, reading live data, directly from SharePoint Lists or choose to export it as a graphic image for use in other locations or documents.
